PROFESSIONAL SUMMARY

Full Stack Developer skilled in Python, Django, React.js, MySQL, HTML, CSS, and JavaScript. Experienced in building responsive web applications and REST APIs through academic and personal projects. Passionate about problem-solving, clean code, and continuous learning. Familiar with Git/GitHub, responsive web design, and database management. Eager to contribute technical skills and grow in a professional software development environment.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript(ES6+), C Programming, Java, Php
- **Frontend:** HTML5, CSS3, Bootstrap, React.js, Responsive Web Design
- **Backend:** Django, Django REST Framework, REST APIs, Django ORM
- **Database:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Basic Postman
- **Concepts:** OOP, Data Structures & Algorithms, MVC Architecture, CRUD Operations, Problem Solving, Responsive Web Design, Authentication & Authorization

PROJECTS

Multivendor Ecommerce Web application

Github: <https://github.com/Nehashaheer19/multivendor-Ecommerce>

Technologies: Django, Python, MySQL, HTML, CSS, Bootstrap, JavaScript

- Developed a full-stack multi-vendor e-commerce application with separate modules for Admin, Vendor, and User.
- Built responsive user interfaces for product browsing, cart management, wishlist, and order placement using HTML, CSS, Bootstrap, and JavaScript.
- Implemented backend functionalities including authentication, product management, order handling, and vendor onboarding using Django and MySQL.
- Created REST-based backend workflows and integrated frontend components with Django views and database operations.
- Used Git and GitHub for version control and project management during development.
- Designed admin functionalities to manage users, vendors, products, categories, and orders efficiently.

Event Booking UI

Technologies: React.js, Vite, HTML, CSS, Bootstrap

Github: <https://github.com/Nehashaheer19/Event-booking>

- Developed a responsive Event Booking UI using React.js, HTML, CSS, and Bootstrap.
- Implemented event display, booking functionality, and booked event tracking using React Hooks (useState).
- Used props and dynamic array updates for efficient state management and component communication.
- Designed reusable components and mobile-friendly responsive layouts using Bootstrap.

EDUCATION

B.Tech in Computer Science and Engineering

2021-2025

LBS College of Engineering, Kasaragod

CERTIFICATION

Python Full Stack Development Course

Blearn Academy | October 2025 - April 2026

- Completed training in Python Full Stack Development.
- Learned Django, React.js, REST APIs, MySQL, HTML, CSS, JavaScript, and Git/GitHub.
- Built full-stack web applications with frontend and backend integration.
