PROFILE

Full Stack Python Developer with hands-on experience in Django, focused on building scalable and user centric web applications. Developed a multivendor ecommerce platform with vendor dashboards, authentication systems, and ecommerce features like cart and wishlist. Strong in backend development, database design, and responsive UI development. Seeking an entry-level software developer role.

SKILLS

- **Languages:** Python, Java, C, JavaScript
- **Frameworks:** Django, Django REST Framework, React.js
- **Frontend:** HTML5, CSS, Bootstrap
- **Database:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code
- **Concepts:** Web Application Development, Full Stack Development, CRUD Operations, OOP, DBMS

PROJECTS

Multivendor Ecommerce Web application

Technologies: Django, Python, MySQL, HTML, CSS, Bootstrap, JavaScript

- Developed a full-stack multivendor e-commerce platform with separate user and vendor authentication.
- Designed and implemented a vendor dashboard to manage products, orders, and earnings efficiently.
- Implemented product CRUD operations with image upload functionality.
- Added cart, wishlist, and category-based product filtering.
- Created admin modules using Django Admin Panel to manage users, vendors, products, and categories.
- Designed responsive UI using Bootstrap for improved user experience.

Hostel Management System

Technologies: Django, Flutter, MySQL

- Designed and developed a web-based hostel management system with modules for student registration, billing, and attendance tracking.
- Implemented CRUD operations to manage student data efficiently.
- Improved data handling and system usability through structured backend logic.
- Integrated frontend and backend components for smooth user experience.

Cyberbullying Detection System

Technologies: Python, LSTM/CNN, Django, MySQL

- Developed a deep learning-based system to detect cyberbullying content using LSTM/CNN models.
- Performed text preprocessing and model tuning to improve classification accuracy.
- Built backend integration using Django for handling input and prediction results.
- Managed data storage and retrieval using MySQL.

EDUCATION

B.Tech in Computer Science and Engineering

2021-2025

LBS College of Engineering, Kasaragod

CERTIFICATES

— Python Programming Internship – Reverttech IT Solution (July 2024)
